

Caring for your ClearShield Protected Glass

As needed, clean ClearShield protected shower glass with a soft cloth or sponge. For best results, squeegee dry after each use.

General Maintenance

ClearShield not only protects shower glass from harmful contaminants that can otherwise damage or permanently etch the glass surface, it also makes cleaning your shower glass much easier.

Never use harsh, highly acidic / alkaline cleaners, sharp instruments or abrasive scouring powders or pads to clean your ClearShield protected shower glass. Cleaners containing hydrofluoric and phosphoric acid should also not be used.

The following is a list of **approved common household cleaners** that are safe to use with ClearShield.

- Arm and Hammer Clean Shower Daily Fresh Clean Scent
- Clorox Green Works Natural Bathroom Cleaner
- CLR Fresh Scent Bath and Kitchen Daily Multi-Surface Cleaner
- Lime-A-Way
- Lysol Bathroom Cleaner 4 in 1
- Scrubbing Bubbles Natures Source Bathroom Cleaner
- Tilex Fresh Shower Daily Shower Cleaner

In addition, a simple mix of 5 parts water and 1 part vinegar is and safe and effective solution for cleaning your ClearShield protected shower glass.

For optimum results, ClearShield AfterCare for Shower Glass provides long life protection, features an anti-bacterial formula and is safe to use on all shower framework and hardware. Please contact your local distributor or visit www.clearshieldonline.com for more information.
